SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY UNDERTAKING**1.1. Product Identifier:** ARK™ Lacosamide Assay

Product Number: 5033-0001-00

(a) Other means of identification/synonyms

Antibody/Substrate Reagent 1 4033-0001-01

Enzyme Reagent 2 4033-0002-01

Product Type: Liquid Mixture

**1.2 Relevant identified uses of the substance or mixture and uses advised against

24 Hours/Day, 7 Days/Week**2. HAZARDS IDENTIFICATION****2.1. Classification of the substance or mixture**

This product is a reagent kit consisting of individual ingredients. The classification of material is not considered hazardous by the EC Regulation 1272/2008 and OSHA Hazard Communication (29CFR 1910.1200)

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

2.2. OSHA/HCS Status:

Regulation (EC)
1272/2008 [GHS]

ARK™ Lacosamide Assay

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

GHS Label Elements:

Signal word: ARK™ Lacosamide Assay No signal word.
Hazard statements: ARK™ Lacosamide Assay No known significant effects or critical hazards.

Precautionary statements

Prevention: ARK™ Lacosamide Assay Not applicable.
Response: ARK™ Lacosamide Assay Not applicable.
Storage: ARK™ Lacosamide Assay Not applicable.
Disposal: ARK™ Lacosamide Assay Not applicable.
Supplemental label elements: ARK™ Lacosamide Assay Not applicable.

Hazards not otherwise classified: ARK™ Lacosamide Assay Not applicable.

3. COMPOSITIONS/INFORMATION ON INGREDIENTS**Antibody/Substrate Reagent 1****GHS Classification**

The GHS classification of the mixture has not been determined. Not a hazardous mixture based on bridging principles of GHS classification (2005) of individual components and ingredients and regulation EC No 1272/2008

Components

| Chemical name | CAS no. EC No | Concentration (%w/w) | Classification |
|---|-------------------------|----------------------|---------------------------|
| Nicotinamide adenine dinucleotide, monosodium dihydrate | 20111-18-6 683-623-6 | >0.1 to <5 | Not a hazardous substance |

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

| | | | |
|--------------------------------------|-------------------------|------------|---------------------------|
| Glucose 6 phosphate disodium hydrate | 3671-99-6 222-938-1 | >0.1 to <5 | Not a hazardous substance |
| Sodium Chloride | 7647-14-5 231-598-3 | >0.1 to <5 | Not a hazard substance |
| Albumins, Blood Serum | 9048-046-8 232-936-2 | >0.1 to <5 | Not a hazardous substance |

Any concentration shown as a range is to protect confidentiality or is due to batch variation. Concentrations below 0.1%w/w for other ingredients are excluded per EC 1907/2006 and amended Annex II 2020/878. Occupational Exposure limits are listed in Section 8.

Enzyme Reagent 2

GHS Classification

Not a hazardous substance or mixture

Components

| Chemical name | CAS no. EC No | Concentration (%w/w) | Classification |
|--|-------------------------|----------------------|---------------------------|
| HEPES 4-(2-Hydroxyethyl) piperazine-1- ethanesulfonic acid | 7365-45-9 230-907-9 | >0.1 to <5 | Not a hazardous substance |
| HEPES sodium salt 4-(2-Hydroxyethyl) piperazine-1- ethanesulfonic acid sodium salt | 75277-39-3 278-169-7 | >0.1 to <5 | Not a hazardous substance |
| Sodium Chloride | 7647-14-5 231-598-3 | >0.1 to <5 | Not a hazard substance |
| Albumins, Blood Serum | 9048-046-8 232-936-2 | >0.1 to <5 | Not a hazardous substance |

Any concentration shown as a range is to protect confidentiality or is due to batch variation. Concentrations below 0.1%w/w for other ingredients are excluded per EC 1907/2006 and amended Annex II 2020/878. Occupational Exposure limits are listed in Section 8.

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

4. FIRST AID MEASURES**4.1. Description of necessary first aid measures**

| | |
|-------------------------|--|
| Eye contact: | If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious amounts of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor. |
| Skin contact: | Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor. |
| Inhalation: | Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Immediately notify medical personnel and supervisor. |
| Ingestion: | If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor. |
| Protection of first aid | The first aid procedure should be established in consultation with medical personnel responsible for industrial medicine. No action shall be taken involving any personal risk or without suitable training. It may be dangerous to perform mouth to mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |
| Responders: | See Section 8 for Exposure Controls/Personal Protection Recommendations. |

4.2. Most important symptoms and effects both acute and delayed: See also sections 2 and 11.

Indication of immediate medical attention and special treatment needed if necessary:

Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

Potential acute health effects

| | |
|---------------|--|
| Eye contact: | No known significant effects or critical hazards. |
| Inhalation: | Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure. |
| Skin contact: | No known significant effects or critical hazards. |
| Ingestion: | No known significant effects or critical hazards. |

Overexposure signs/symptoms

| | |
|---------------|-------------------|
| Eye Contact | No specific data. |
| Inhalation: | No specific data. |
| Skin contact: | No specific data. |
| Ingestion: | No specific data. |

4.3. Indication of immediate medical attention and special treatment needed if necessary

| | |
|-----------------------------|--|
| Notes to physician: | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested. |
| Specific treatments: | No specific treatment. |
| Protection of first-aiders: | No action shall be taken involving any personal risk or without suitable training. The first aid procedure should be established in consultation with physician responsible for industrial medicine. |

5. FIREFIGHTING MEASURES**5.1. Extinguishing media**

| | |
|---------------------------------|---|
| Suitable extinguishing media: | In case of fire, use water spray (fog), foam, carbon dioxide or dry chemical as appropriate for surrounding fire and materials. |
| Unsuitable extinguishing media: | None known |

5.2. Special hazards arising from the substance or mixture

| | |
|---------------------------------------|--|
| Hazards from the substance or mixture | In a fire or if heated a pressure increase |
|---------------------------------------|--|

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

Hazardous thermal decomposition products: could occur resulting in the container to burst
No specific data.

5.3 Advice for firefighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece

6. ACCIDENTAL RELEASE MEASURES**6.1. Personal precautions, protective equipment, and emergency procedures**

For non-emergency personnel:

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For emergency responders:

If specialized clothing is required to deal with the spillage, take note of any in Section 8 on suitable and unsuitable materials. See also the information in “For non-emergency personnel”.

6.2. Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3. Methods and materials for containment and cleanup

Small spill:

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of it via a licensed waste disposal contractor.

Large spill:

Stop leak if without risk. Move containers from spill area. Prevent entry

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

into sewers, water courses, basements, or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g., sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of it via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

6.4. Reference to other section(s)

See section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information and disposal.

7. HANDLING AND STORAGE

7.1. Precautions for safe handling

Protective measures: Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene:

Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored, and processed. Workers should wash hands and face before eating, drinking, and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2. Conditions for safe storage, including any incompatibilities:

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

7.3. Specific End Uses

Laboratory Reagents for Clinical Chemistry Analyzers

10-April-2024

Date of Previous Issue:

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION**8.1. Control Parameters**

Antibody substrate Reagent 1

Contains no substances with occupational exposure limit values.

Enzyme Reagent 2

Contains no substances with occupational exposure limit values.

8.2. Exposure ControlsAppropriate engineering
Controls

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Personal protective equipment

The selected protective equipment have to satisfy the specifications of Regulations EU 2016/425 and the standard EN 374 derived from it.

Hand

Wear appropriate protective gloves to prevent skin contact. Replace torn or punctured gloves promptly. Please observe the instructions regarding the permeability and breakthrough time provided by the supplier of gloves.

Eye

Wear Safety Glasses complying with approved standards commensurate with risk assessment indicating possibility of liquid splashes.

Skin and Body

Appropriate clothing preferably a lab coat as protective suit. Personal protective equipment for the body should be selected based on the task being performed and the risks involved in handling the product. Appropriate footwear and any additional skin protection should be selected during the performance of the tasks.

Hygiene measures

Handle in accordance with good industrial hygiene and safety practice.

Wash hands, forearms and face thoroughly after handling chemical products before eating and using the lavatory/toilet at the end of the working period. Wash contaminated clothing before reusing. Ensure eyewash stations and safety showers are in the vicinity and functional.

Respiratory Protection

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Ensure proper training and fitting before use. No personal respiratory protective equipment is

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

normally required during the handling of this product.

Environmental exposure
controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

10. STABILITY AND REACTIVITY

10.1. Reactivity No specific test data related to reactivity available for this product or its ingredients. No dangerous reaction known under conditions of normal use.

10.2. Chemical Stability The product is stable when stored as recommended.

10.3. Possibility of hazardous reactions Not expected to occur

10.4. Conditions to avoid No thermal hazard.
Avoid temperatures $\geq 32^{\circ}\text{C}$ to preserve biochemical integrity.

10.5. Incompatible materials No information identified.

10.6. Hazardous decomposition products No information identified.

11. TOXICOLOGICAL INFORMATION

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

11.1. Information on hazard classes

| | |
|---|---|
| Acute Toxicity | Not classified based on available information |
| Irritation/Skin Corrosion | Not classified based on available information |
| Serious Eye damage/Injury | Not classified based on available information |
| Sensitization | Not classified based on available information |
| Mutagenicity | Not classified based on available information |
| Carcinogenicity | Not classified based on available information |
| IARC | No ingredient of this product present at levels greater than or equal to 0.1% w/w is identified as probable, possible or confirmed human carcinogen |
| OSHA | No component of this product present at levels greater than or equal to 1% w/w is on OSHA's list of regulated carcinogens |
| NTP | No ingredient of this product present at levels greater than or equal to 0.1% w/w is identified as a known or potential carcinogen. |
| Conclusion Summary: | |
| Reproductive Toxicity | Not available |
| Teratogenicity | Not available |
| Conclusion Summary: | |
| Specific target organ toxicity (STOT) (Single exposure) | Not available |
| Specific target organ toxicity (Multiple exposure) | Not available |
| Aspiration hazard | Not available. |

Potential acute health effects:

| | |
|--------------|---|
| Eye contact | No known significant effects or critical hazards. |
| Inhalation | No known significant effects or critical hazards. |
| Skin contact | No known significant effects or critical hazards. |

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

Ingestion No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact No known significant effects or critical hazards.

Inhalation No known significant effects or critical hazards.

Skin contact No known significant effects or critical hazards.

Ingestion No known significant effects or critical hazards.

Delayed and immediate effects and also chronic effects from short and long term exposure**Short term exposure**

Potential immediate effects Not available

Potential delayed effects Not available

Long term exposure

Potential immediate effects Not available

Potential delayed effects Not available

Potential chronic health effects Not available

Conclusion/Summary

General No known significant effects or critical hazards

Carcinogenicity No known significant effects or critical hazards

Mutagenicity No known significant effects or critical hazards

Teratogenicity No known significant effects or critical hazards

Developmental effects No known significant effects or critical hazards

Fertility effects No known significant effects or critical hazards

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

Numerical measures of toxicity

Acute toxicity measurement Not available.

11.2. Information on other hazards

Endocrine disrupting properties Not available

To the best of our knowledge, the chemical, physical and toxicological properties of the mixture s have not been thoroughly investigated.

12. ECOLOGICAL INFORMATION

12.1. Toxicity No data available for R1 and R2 mixture

HEPES

Toxicity to daphnia and other aquatic invertebrates
48h

Static test EC50- Daphnia magna (water flea) >100mg/L
(OECD Test Guideline 202)

Toxicity to algae

Static test NOEC – Pseudokirchneriella subcapitata
(Green algae) > 100mg/L 72h (OECD Test Guideline 201)

Remarks – refers to pure substance (HEPES) not mixture

12.2. Persistence and degradability Biodegradability Aerobic exposure 28d Results 0%. Not readily biodegradable (OECD Test Guideline 301D)

Remarks: Refers to pure substance data not available for mixture.

12.3. Bio-accumulative potential Data not available

12.4. Mobility in soil

Soil/water partition coefficient (K_{oc}) Not Determined

12.5. Results of PBT a vPvB assessment PBT/vPvB assessment not available

12.6. Endocrine disrupting properties No data available

12.7. Other adverse effects No known significant effects or critical hazards.

13. DISPOSAL CONSIDERATIONS

Disposal methods Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residue. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

14. TRANSPORT INFORMATION

Transport Based on available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID US DOT, Canada TDG, IATA or IMDG.

- 14.1. UN Number** None assigned.
- 14.2. UN Proper Shipping Name** None assigned, not regulated as a dangerous good
- 14.3. Transport hazard classes and packaging group good UNRTDG, IATA_DGR, IMDG-Code** None assigned, not regulated as a dangerous good
Not regulated as a dangerous good
- 14.4. Packing Group** No packing group assigned
- 14.5. Environmental Hazards** Not determined for mixture
- 14.6. Special precautions for users** Mixture not fully tested – avoid exposure.
- 14.7. Maritime transport in bulk** Not applicable
- 14.8. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code** Not applicable
- 14.9. Domestic regulation (US) 49 CFR** Not assigned, Not regulated as a dangerous good

Safety Data Sheet

Date of Issue/Date of Revision:

Page 18 of 19

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

Philippines inventory (PICCS):

Not determined

Taiwan inventory (CSNN):

Not determined

16. OTHER INFORMATION

Revision #, Date of Effectivity: Refer to the Header of this document (The Effective Date is the same as the Revision Date.)

Key to Abbreviations:

AIIC = Australian Inventory of Chemicals

ACGIH=American Conference of Governmental Industrial Hygienists

ADR/RID=European Agreement Concerning the International Carriage of Dangerous goods by Road/Rail;

AIHA=American Industrial Hygiene Association

ATE=Acute Toxicity Estimate

BCF=Bioconcentration Factor

CAS=Chemical Abstract Services

CEPA=Canadian Environmental Protection Act

CLP=Classification, Labelling and Packaging of Substances and Mixtures

DNEL=Derived No Effect Level

DSL=Domestic Substances List

EINECS=European Inventory of New and Existing Chemical Substances

EU=European Union

GHS=Global Harmonized System of Classification and Labelling of Chemicals

IARC=International Agency for Research on Cancer

IATA=International Air Transport Association

IBC=Intermediate Bulk Container

IDLH=Immediately Dangerous to Life or Health

IMDG=International Maritime Dangerous Goods

LOEL=Lowest Observed Effect Level

LOAEL=Lowest Observed Adverse Effect Level

LogPow=logarithm of the octanol/water partition coefficient

MARPOL 73/78=International Convention for the Prevention of Pollution from Ships, 1973 as modified by the Protocol of 1978. (Marpol=marine pollution)

NIOSH=National Institute of Occupational Health and Safety

NOEL=No Observed Effect Level

NOAEL=No Observed Adverse Effect Level

NTP=National Toxicology Program

OEL=Occupational Exposure Limit

OSHA=Occupational Safety and Health Administration

10-April-2024

Date of Previous Issue:

16 March 2017 (Rev.01/Ver.0)

SDS – ARK™ Lacosamide Assay

Meets the requirements of Regulation (EC) No. 1907/2006 (REACH), Annex II, with changes introduced by Commission Regulation (EU) 2020/878, and Occupational Safety and Health Administration Standard Number 1910.1200 App D.

PNEC=Predicted No Effect Concentration

SARA=Superfund Amendments and Reauthorization Act

STEL=Short Term Exposure Limit

TDG=Transportation of Dangerous Goods

TSCA=Toxic Substances Control Act

TWA=Time Weighted Average

UN= United Nations

WHMIS=Workplace Hazardous Materials Information System

Neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy and completeness of the information contained herein. No representation, warranty or guarantee, expressed or implied (including warranty of fitness or merchantability for a particular purpose), is made with respect to the materials. The above information is offered in good faith and with the belief that it is accurate.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
